Osteopathy the Coming  
Science.

The most beautiful, if not the greatest discovery of the age, the one of the widest significance, which will be most welcomed by the whole human family, because of its intimate relationship to its needs, their success and their happiness, has been made in the science of materia medica.

The discovery, promulgation and rapid strides into public favor of the science of Osteopathy is a refutation of all our preconceived ideas, and especially revolutions in our traditions, superstitions and dogmas in regard to the methods of successfully combating with disease.

It must be admitted by the thoughtful and observant that the old schools of medicine have not kept pace with the world's progress. The reason for this is not the lack of education, training or experience—all these they have had, and yet death and disease stalked stately through our land more defiantly than ever, in every mockery of their skill. It is because the base upon which they raise the superstructure is wrong, and no logic and no education can get away from this fact. The Green River Republican makes this statement with reluctance and many regrets, but with the certainty born of conviction and incontrovertible facts.

trovertable proofs which admit of neither cavil or dispute.

The science of medicine as now practiced possesses neither philosophy nor common sense, being based chiefly on conjecture improved by error. Their most curative agents are admitted to be poisons, every dose of which diminishes the vitality and is often more dangerous to the patient than the disease the physicians professes to cure. Their remedies, while apparently curing one disease, to often implant the seeds of other ailments.

Then let us briefly turn to surgery. What constitutes today the most skillful surgeon? He is recognized by his ability to do the most cutting and carving of the human body in the shortest time. Do we not see on all sides useless and even senseless wounding of the knife, where the surgeon finds in his dismay that the supposed offending organ is perfectly sound or normal?

Happily for humanity these things are becoming things of the past. The brightening rays of Osteopathy are rapidly dispelling the gloom of prejudice and ignorance with their benign light and extending a helping hand in accordance with nature's laws in the common sense, practical and effective method of cure.

Osteopathy is a science founded solely upon anatomy. Its treatment is entirely and distinctly its own, and its marvelous results are reached by scientific methods not known or practiced by any other school. The Osteopath views the human form as a machine, and when an abnormal condition arises is enabled by his intimate knowledge of the human mechanism to trace the origin of an affliction to some abnormality of bone, muscle, tendon, vein, artery or nerve. He then applies his treatment directly where it is needed to restore harmony and re-establish health without the aid of drug or knife. In fact, the skillful Osteopath plays upon the different parts of the human anatomy as the musician upon his harp, tuning it and making it respond and act in harmony with the whole.

Osteopathy is that science which consists of such exact, exhaustive and veritable knowledge of the structure and functions of the human mechanism, anatomical, physiological, including the chemistry and physics of its known elements, as has made discoverable certain organic laws and remedial resources within the body itself by which nature, under the scientific treatment peculiar to Osteopathic practice, apart from all ordinary methods of extraneous, artificial or medicinal stimulation, and in harmonious accord with its own mechanical principles, molecular activities and metabolic processes, may recover from displacements, disorganizations, derangements and consequent diseases and regain its normal equilibrium of form and function in health and strength.

We have been lead to investigate this subject and publish this article by receiving so many letters of inquiry from our readers asking whether Osteopathy was all that had been claimed for it, or whether they could find an Osteopath to consult. What we have said above will convince all that we esteem Osteopathy one of the wonders of this wonderful age.

The Southern Infirmary of Osteopathy, located at Franklin, Ky., is one of the leading Osteopathic institutions and the only great Southern institution. The large part of our people who have received benefit from Osteopathy have received treatment at Franklin. There is no school of Osteopathy better able to thoroughly equip for the practice of Osteopathy than is this institution. Kentucky is to be congratulated upon the possession of one of the largest and best equipped schools and infirmaries. A very large class is expected this fall and quite a number from this section are arranging to enter.

The Southern School of Osteopathy will send catalogues and Journals of Osteopathy to any of our readers who may desire them.

Having a Great Run on Chamberlain's Cough Remedy.

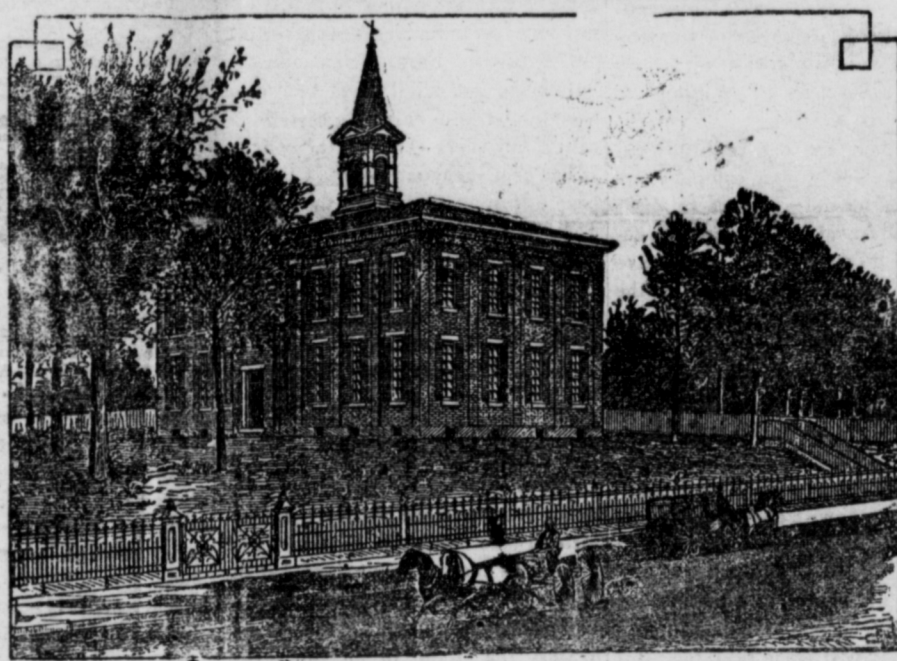

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by Z. Wayne Griffin & Bro.

Departments---COLLEGIATE, TEACHERS', PREPARATORY, COMMERCIAL, ELOCUTION, MUSIC AND LAW.

**Collegiate Department.**  
By reference to the year book of 1899 and 1900 it will be observed that the courses of study are more complete and the field of research broader than they have been at any time in the history of our institution.

As advancement is made in culture and intelligence a demand for institutions of a higher class of work is necessitated. To meet these demands we have adopted such courses of study as the experience and observation of years of labor and thought have proven to be the most natural and will lead to the most complete mastery of the subjects to be pursued. It is our aim to teach students to think and act for themselves. Not only do we endeavor to arouse in students a desire to master the study which they are to pursue, but to instruct them in those general principles that lead men to a higher and nobler plane of action. Students need, as we think, instruction in their social relations and moral conduct. We endeavor to thoroughly impress upon the minds of our pupils the important fact that accuracy of knowledge, thoroughness in mental discipline, correctness of expression and morality are necessary to make life what it ought to be and can be made.

The following branches will be pursued during the spring term: Mathematics, Geometry, Surveying, Astronomy, Trigonometry, Mechanics and Calculus; Latin; Beginning Latin, Caesar; English Literature; Panchast's text, some of the recent writers, Philosophy of Literature and Draper's Intellectual Development of Europe, and General History; Sciences, Botany, Physics, Psychology and Chemistry. Besides these a number of classes will be organized to suit the demands of the pupils. In fact, we feel safe in saying that we are prepared to meet the needs of all.

**Teachers' Courses.**  
These courses are under the instruction of the ablest teachers in the school and the work done in them covers every branch required by the State for a County certificate, a State certificate or a State diploma. Every faithful and energetic teacher expects to at least complete these courses and obtain from the State the highest certificate of qualification possible. The constantly growing demand for well trained teachers, with broad and liberal preparation for their work has made it necessary for us to provide the very highest grade of instruction in each particular line of the teachers' work. In order to do this, each class has been placed in the hands of a teacher who has made a specialty of the work and who will spare no pains to make the work popular and effective. While we give such instruction as will best prepare for examinations we most rigidly insist upon a thorough understanding of the principles of the subject taught. Our work in Pedagogical lines is intended to develop more capable and conscientious men and women for all the departments of teaching.

Do you need work in the Teachers' course? If so, we want you. Are you deficient in Spelling, Reading, Writing, Composition, Grammar, Arithmetic, Geography, History, Civics, Physiology, Educational Psychology, Methods, Physics, Geometry, Literature or Latin? If so, this is the place for you to attend school, as teachers' classes will be sustained in all the above named branches during our spring term. Our work will be thoroughly and honestly done and will be done according to the best methods that experience and observation suggest.

### KEEP AT IT.

If you expect to conquer  
In the battle of to day  
You will have to blow your trumpet  
In a firm and steady way.  
If you took your little whistle,  
Then lay aside the horn,  
There's not a soul will ever know  
That such a man was born.

The man that owns his acres  
Is the man that plows all day;  
And the man that keeps a humping  
Is the man that's here to stay.  
But the man who advertises  
With a sort of sudden jerk  
Is the man that blames the printer  
Because it didn't work.

But the man that gets the business  
Uses brainy printers' ink,  
Not a clatter and a sputter,  
But an ad that makes you think;  
And he plans his advertisements  
As he plans his well bought stock,  
And the future of his business  
Is as solid as a rock.

### COOKING A HUSBAND.

A Few Simple Rules for Making Them Tender and Digestible.

In selecting your husband you should not be guided by the silvery appearance as in buying mackerel, or by the golden tint, as if you wanted salmon. Be sure to select him yourself, as tastes differ. Don't go shopping for him, as the best are always brought to your door. When bought, tie him in the saucpan with a strong cord called Comfort—as the kind called Duty is apt to be weak. Husbands sometimes fly out of the saucpan and become burned and rusty on the edges, since, like lobsters and oysters, you have to cook them alive. Make a clear, strong, steady fire out of Love, Neatness and Cheerfulness. Set him as near this as seems to agree with him. If he sputters and fizzes don't be anxious. Some husbands do this until they are quite done. Add a little sugar in the form of Kisses, but no vinegar or pepper. A little spice improves husbands, but it must be used with judgment. Don't stick any sharp instrument into him to see if he is becoming tender. Stir him gently watching the while lest he should lie too close to the saucpan and so become tasteless. You cannot fail to know when he is done. If thus treated you will find him very digestible, agreeing nicely with you and the children.—Exchange.

"A young man came into our store yesterday suffering from a severe attack of cramp colic," writes B. F. Hess, miller and general merchant, Dickey's Mountain, Pa. "He had tried various home remedies without relief. As I had used Chamberlain's Colic, Cholera and Diarrhoea Remedy I gave him a dose and it soon brought him out alright. I never saw a fellow so rejoiced." Sold by Z. Wayne Griffin & Bro.

### Does it Pay?

Does colonization pay? This is a question which Americans are now asking. Another question which thoughtful, fair minded people are asking is: Does colonization prove advantageous to the people of the territory colonized? To these questions the best answer is provided by the experience of those other nations that long ago reached the point where such a step was found necessary.

Colonization does not have to-day the purpose that it had a century ago, nor does it have the same objects to-

## ALL WOMEN AGREE.

is not a chance remedy. Its good effects are readily experienced by all expectant mothers who use it. Years ago it passed the experimental stage. While it always shortens labor and lessens the pains of delivery, it is also of the greatest benefit during the early months of pregnancy. Morning sickness and nervousness are really overcome, and the infant relaxes the strained muscles, permitting them to expand without causing distress. Mother's Friend gives great recuperative power to the mother, and her recovery is sure and rapid. Danger from rising and swollen breasts is done away with completely.

day: Indeed, the purpose of various countries in this regard differ so widely that the term "colonization" is frequently misleading, and may at the present time be considered in some cases inappropriate. Strictly speaking, colonization, in accordance with its purposes, may be divided into three classes: (1) its earlier, and in some of the later; applications it meant the planting of groups of citizens of the mother-country in new territories, with the purpose of establishing for them and for their descendants permanent homes, and adding to the group in large numbers from the home population as it grew congested; (2) in other cases "colonization" has been chiefly an attempt at conquest and rapid gain, by seizure of accumulated wealth or source of wealth; (3) in still other cases, the purpose has been more especially to secure new outlets for the products of the mother country and new sources of supply. Where the purpose of colonization is accompanied by, and made coincident with, an honest effort to extend to the people of the country thus controlled the benefits of the experience and training of the mother-country, by giving to them a stable and improved form of government and by developing their resources, the advantages to the colonizer and to the inhabitants of the territory colonized become mutual.—"Does Colonization Pay?" by O. P. Austin in the January Forum.

It is said that a young preacher, once desiring to get the opinion of Prof. Jowett as to a sermon he had preached, asked him what he thought of it. The Professor looked at him a moment, and then slowly added: "Edward, if you would pluck a few of the feathers from the wings of your imagination, and stick them in the tail of your judgment, you would make better sermons." That is a criticism not likely to be easily forgotten.

## The Ills of Children.

Dr. Hartman offers his advice to parents on the treatment of coughs and colds.

**LEARN**  
child catches cold don't wait a moment before attacking that cold. To the ignorance or neglect of parents is due the fatal termination of many children's complaints.  
If you are not informed as to the proper course to pursue to drive off a child's cold, write to Dr. Hartman, president of the Surgical Hotel, Columbus, O., for advice, and ask for some of his free books which contain the most pertinent facts about colds and coughs and all catarrhal diseases.  
Per-na, Dr. Hartman's great prescription, is wholly vegetable. It wards off colds entirely if taken at the beginning in proper doses. It breaks up settled colds quickly; it is scientific and safe; there is no mystery about it. Dr. Hartman's books tell just how it acts and why. All druggists sell it.  
Mrs. C. T. Rogers, Elgin, Ill., says: "Dr. S. B. Hartman, Columbus, O."  
DEAR SIR:—"Your medicine saved my baby's life. We stopped all treatment but yours, and now he is a beautiful boy. It was certainly a miracle."  
Mrs. Becking, East Toledo, O., writes to the Per-na Medicine Co.:  
DEAR SIR:—"Per-na is the best medicine I ever had in my house. My children had a bad cough, and one of them had the lung fever. I cured them all with Per-na."  
Proper knowledge of the treatment of coughs and colds is of the first importance to parents. This knowledge is offered free. All catarrhal diseases succumb to Per-na.

FRIDAY, JANUARY 5

JO C. S. BLACKBURN is a pretty good Spaniard. The desertion of his friend Sandford is truly the act of a vile and unscrupulous Spaniard.

THE Democratic party, in Ohio county, in Kentucky and in the United States, is now where Moses was when the light went out—in the dark.

AGUINALDO yet survives and is roving the hills of Western Luzon. His capture may be affected any moment. Gen. Young is still in pursuit of his ghost.

JOHN R. McLEAN, Cincinnati's candidate for President, then Governor of Ohio, is now a candidate for Mayor of the great manufacturing town—Cincinnati. This appears to be retrogression to most people. Wonder what McLean thinks about it?

SOUTH TRIMBLE, the author of the Trimble letter to Thompson, which has appeared frequently in the local and State papers, was elected Speaker of the House of Representatives. If any one desires to know in advance how that body will be governed, they would do well to read Trimble's letter again and then form a conclusion.

THE Goebel men have been dislodged again. The tissue ballots have been exposed by the man that printed them. He declares that the ballots used in the seventeen counties, now contested by the Goebels, were the same as those used in the counties that gave Goebel large majorities. This charge is like most Democratic charges—without foundation.

GEN. P. WATT HARDIN again bobs up in Kentucky politics, to save, he says, the Democratic party from ruin. Had Mr. Hardin done this the election had passed, he might have said this, but it seems that the redeemer is too late. Goebel has had a dead "clinch" on the Democracy in old Kentucky and when he turns loose there will not be so much as a shred left.

GOV. TAYLOR's message to the General Assembly is a masterpiece product. It shows that the people made no mistake in choosing their Governor. He is conversant with the State's needs and has clearly presented them to the proper tribunal for their betterment. But this scholarly message will doubtless pass as did those of the matchless Bradley—unheeded. However, Gov. Taylor has faithfully performed his duty, he has recommended that which seems to be the best interest of the State and now the responsibility passes to the General Assembly.

WILLIAM GOEBEL has at last filed notices of contest, and now Kentucky and the legislature are to endure another reign of terror. In 1792 Kentucky was admitted into the Union and Isaac Shelby was elected first Governor. Since that date a Governor has been elected every four years, and never was a contest filed out of this entire number. But now, Senator Goebel breaks the record. He is an ambitious man with evil designs and will cause the name, Kentucky, to be a synonym of fraud and corruption. Well might one exclaim, "Where are we at?"

THE time to be looking about for Vice-Presidential timber is ripening. No question about the Presidency is raised by any. McKinley's renomination and re-election is doubly assured. It appears that the Vice-Presidential plum of 1900 should be thrown to a Southern Republican. Not since 1856 has Kentucky been honored with a place on the National ticket, and not since Kentucky was delivered from Democracy has been shown proper sympathy and encouragement by the National organization. The splendid administration and career of Gov. W. O. Bradley make him the most prominent man of the South. His wonderful ability, force of character and manly bearing eminently qualify him for any position within the gift of the people. His efforts to maintain, defend and protect civil liberty in Kentucky have made him the idol of every lover of liberty within the State and the central figure of all the South. An intellectual giant, a profound and sagacious statesman, an eminent lawyer, an orator, the equal of any of his time combined make of him the greatest statesman of the South and as good material as the nation possesses. With McKinley and Bradley the Republican party will sweep the nation and carry Kentucky by the largest majority ever given a Republican ticket.

THE secret ballot system just now is receiving the condemnation of many disappointed and disgruntled politicians and editors of newspapers of the fourth-class. It is charged that since the adoption of the secret ballot system of voting, fraud has reigned supreme at elections. Never was so base a charge uttered by man. Under this system of voting every man, both rich and poor, alike, enter a secret booth and there choose men to make and

enforce laws for himself and country. Under this system men cannot be driven to the polls and voted like so many beasts of burden. The secret ballot makes a poor man equal to the millionaire. Many Northern States have adopted the Australian ballot system of voting, and it has proven eminently satisfactory in every particular. The reason why it is unpopular in Kentucky is because under its provisions Democracy has been dethroned, and the State now enjoys the inevitable results of Republican rule—progress and prosperity. There has never been a valid reason given for its repeal and never will. There are none. THE REPUBLICAN is very much in love with the secret ballot, and it believes it voices the will of the people in this statement. With honest men at election offices there can be no fraud in elections.

**What Will Kentuckians Do?**  
Recent developments at Frankfort indicate that Goebel has the legislature where he had the convention. Fallen Blackburn received the caucus nomination for Senator, which is not altogether equivalent to an election, but that of itself shows that the Goebel gang are in the majority. However, Democratic nominations nowadays are not synonymous with the term, election, nor equivalent to election. Another indication that Goebel is sanguine in his serving notice of contest. If a majority of the legislators are in full sympathy with Goebel there is no question now as to the result of a contest before such a tribunal. Among such, honesty is a total stranger, right and fairness unknown, and justice brooms among them never. Considering the fact that the election which Goebel and his mercenary followers now claim was one great scene of fraud, the result of which they are now contesting, was held exclusively, in every instance, in every particular, in every nook and corner of the State, by his own ideal men of honor and honesty, and considering their charges of fraud, the honest man loving the fair name of Kentucky must blush for shame. Under such a state of affairs the boasted chivalry and manhood of Kentucky should rise in its might, assert its authority and enforce its verdict of November 7th, at whatever cost or consequence may follow. We are freemen. We must be free. If partisan courts wholly ignore the great people's will and decision, then the people should disregard entirely the decisions and mandates of such tribunals and seek justice in whatever manner necessary to secure it. If we are to be free we must be free indeed. The outrages of Goebelism upon the liberties of Kentucky manhood is an insult to her people, and goes without a precedent in all Kentucky's history. To submit to his fraud and highway robbery now mean to endure it a quarter of a century. But we voice the sentiment of every honest Kentuckian who regards the will of the majority above all things else, first, last and always, when we say that Kentucky and Kentuckians will never endure Goebelism.

**Democratic Discrepancy.**  
The Democratic party, under the leadership of William Goebel in Kentucky, is in a worse and more critical condition, if possible, than the Democratic party in the United States under the leadership of William Bryan. In Kentucky Goebel has destroyed party harmony; he has forced the former leaders of the party to private life; he has stolen from the members of the party, their rights in conventions and primaries; he has caused Kentucky to be placed in the hands of the Republican party to remain an indefinite period; in a word, he has destroyed the party in Kentucky, by raceability and thievery. He is unprincipled and a dangerous man. With his insatiable desire for positions of public trust and honor, he loses sight of party's interest and friend's welfare. He never enjoyed the friendship of a man whom he would not forsake, when, by so doing, his own ends could be accomplished. He once enjoyed the esteem and friendship of that sage of Kentucky Democracy, Hon. John G. Carlisle and when he deemed it popular to desert this friend, he did so. When it was necessary for him to obtain the enmity of Judge John T. Hodge, he did this, too, and declared that he has a double-dealer and an unmitigated liar. He forsook Capt. Stone, the man from Kuttawa, when it was necessary to steal the nomination for Governor. He has gone further than to betray his party associates. When politics in Kenton county were under the leadership of another man, and it became necessary for this man to be slain, that his ambition might be gratified, he provoked and slew him.

It is marvelous to note the history of this man of evil ambition. This Judas Iscariot is as abominable to Kentucky Democracy as the Judas Iscariot of old is to the religious world. He has bound the decrepit Blackburn in chains of adamant. For what purpose? That his own ends might be accomplished. Kentucky Democracy for the past year has been under con-

trol of this apostate. The party creed has been destroyed and a new code of faith has been instilled into the hearts of many partisans. Under the leadership of the apostate Goebel and the decrepit Blackburn, the Democratic party made it impossible for frauds to be committed in elections, especially by Republicans. The law, bearing the title "Goebel," was declared impregnable by fraud, by every demagogue from Goebel and Blackburn to the local politician. In the famous Music Hall platform we find this language: "We endorse the amendment of the State election law passed by the last Democratic General Assembly of Kentucky over the veto of the Republican Governor. We declare that amendment to be in the interest of honest and fair elections; its faithful enforcement will render impossible the commission of such frauds as were perpetrated in this State in 1896, whereby the will of the people was overthrown and the State lost to William J. Bryan."

If this law was not faithfully enforced, Mr. Goebel and company are responsible for it. The election was undoubtedly held under Goebel's decrees, and no man is responsible save Goebel and his tools. This is the party's endorsement, but the language of the man Goebel, had nothing else been said, should condemn every man that said aught about fraud. But the half has not yet been told, the further we go, the more ridiculous the "contest" becomes. In his speech at Louisville, Goebel, with clenched fist, facing his Savior in Heaven, declared: "I have the election right where I had the convention. You cannot count me out, and you cannot count me in." This is what Watterson said, too. But this is not all, at McHenry, this Beelzebub screamed: "The Republicans may do the voting, but we Democrats will do the counting." This statement should have buried its author in everlasting oblivion, but there is still more: "If there is to be stealing of votes in Kentucky hereafter, we propose to do the stealing," shouted the decrepit Blackburn at Mayfield, to which the apostate Goebel said "amen" at Harrodsburg in his speech. In the face of these and numerous other statements, these two disappointed politicians have set up a perpetual howl of Republican intimidation, fraud, force and corruption. When a Democrat states that the Republicans stole this election, he gives himself the lie and nine-tenths of his colleagues. Having held the recent election and counted himself out, this same murderer, assassin and thief has concluded to carry his case into the legislature and there bulldoze enough men to give himself the Governor's chair. If any man or set of men should be averse to a contest, most assuredly it ought to be Goebel and the entire Democratic party. The legislature will never seat such a man. The manhood, of which Kentucky has so haughtily boasted, will never permit it. Goebel desires to keep himself at the head of his party as long as possible, for when this contest shall have been settled he will have become a thing of the past.

**Blackburn and the Senate.**  
If Kentucky's honor and reputation have ever been maligned by men of public favor, that time is now, and J. C. S. Blackburn is the malinger and defamer of her glory. Less than two years ago this same man, who has grown fat at the public crib, caused to be martyred around the capitol building the State militia to protect the peace and restore order. This same Blackburn had a friend, Sandford by name, killed by another man, Goebel by name, and at the tomb of this very dear friend, this same Blackburn invoked the God of men to spare him and he would make it his life's mission to avenge the death of his brother friend by burying his slayer in the depths of merited public execration. "The prayers of the wicked avail nothing," consequently this prayer was a vain one.

Instead of complying with this invocation, he decided he could better bury the slayer of his friend in that merited execration by making him his bosom friend. It was this same Blackburn that persuaded the widow of Sandford to withdraw the damage suit of \$25,000 that he himself had instigated against William Goebel for the murder of her husband. It was this apostate Blackburn that supported, force, fraud and thievery in the recent campaign. This same faithless renegade politician proclaimed all over Kentucky that he did not want the commission as Senator unless it was signed by Wm. Goebel as Governor of Kentucky. Wm. Goebel is not Governor of Kentucky and never will be, and the legislature should deliver Mr. Blackburn's goods to him after his own choosing, and he will never again disgrace the fair name, Kentucky, by representing her people in the United States Senate. Goebel has been fairly defeated by the will of the people and yet this man of dignity was first to suggest a steal of the high office of Governor. This man of lost honor should be nominated by the Goebel-eratic caucus to succeed William Lindsay in the United States Senate. It is quite probable that this nomination

will mean his return to a seat in that great body of men, yet there is some doubt. If this career be Democracy, the sooner it is destroyed the better off will society be. Blackburn is a menace to popular government and Kentuckians demand his retirement.

**The Blind Tiger.**  
The "blind tiger" is raging in most every town in the county. In various communities the tiger is bold enough to declare himself a privileged character. For a number of years the people have suffered from the effects of the illicit sale of liquor. Time after time indictments have been found against these offenders of the law and in nine cases out of ten, the Commonwealth's Attorney would move to throw the indictment out of court, and as a rule the Circuit Judge would comply with the request of the Attorney and the indictments were thrown out of court. From such conduct of our courts the "blind tigers" have been encouraged, not only in a certain locality, but everywhere in the county. It has been very sad to the Christian people in some sections of the county. They have had their revival meetings broken up by the frequent visitors of the "tiger." The peace has been frequently broken on numerous occasions by the tiger's patron.

While Hartford had saloons, the "tiger" had no place here, but ere the saloons had been closed a fortnight this animal had come to Hartford. From the nature of his decorum he seems to have come to stay. His efforts to take the town have met with wonderful success, so much so that the people have become alarmed. They have organized a club to urge war against the "tiger" in all the future courts. When the Commonwealth's Attorney moves to throw out an indictment, the "anti-tiger club" will have a man to object and if the Judge will not give them a fair trial they propose to swear him off the bench and elect a man that will act according to law. Those towns infested with this creature of perdition should have a similar organization to that which is in Hartford. They should join forces and destroy every "tiger" establishment in the county. The whiskey men are organized against the Christian people everywhere, and it is eminently important that those opposing the illicit sale of liquor should link their interests together and make an united effort to exterminate the offenders of the law. The members composing the anti-tiger club are the very best citizens of Hartford. They are very desirous that the law may be enforced. To this end they are earnestly laboring. With an effort upon the part of the new town officials the good people will succeed in banishing from our midst the most cursed of all creatures—the "blind tiger."

The readers of this paper will be pleased to learn that there is at last one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. **Anti-Tiger Resolutions.**  
At a public meeting of the citizens of Hartford, Ky., held in the Circuit Court room on Friday evening, December 22, 1899, the following resolutions were adopted as expressing the sense of the meeting, to wit: Whereas, The people of Ohio county have by a fair vote and a decisive majority decided that the sale of intoxicating liquors is an evil and is hurtful alike to the citizen and to the body politic and that the sale thereof should be by the law prohibited, and Whereas, The people of the town of Hartford, the county seat and chief town of this county, have by a free and fair vote fairly and honestly taken and counted decided that intoxicating liquors should not be sold in this town, and when this vote has been successfully contested in the courts of the State have again by a free and fair election regained the same decision and have followed this decision by a long legal battle in the courts of the State wherein this decision has been upheld by the law of the land and by the judgment of the courts, and Whereas, The people of Hartford, with but few exceptions, are law-abiding people and desire to give no offense to the good citizens of this county whose business or pleasure brings them here, by setting at naught the thus recorded will of the majority and at defiance those high obligations which rest alike upon every citizen of town and county to uphold and respect and obey the law, and Whereas, It is the desire of the honorable people of Hartford, for the protection of the peace and good order of society as well as to guard their own homes against evil, to give hearty and organized support to those in author-

The shock and strain of being fired from a cannon daily through a circus season, would seem to be extraordinary. But it is not nearly so wearing upon the average woman's nervous system, as the strain and drain of the every day life of the married woman. It is not the storm stone but the "continual dropping." So in woman's life it is not the great demands upon her energy which wear her out, but the interminable leakage of her strength through the diseases that affect the delicate womanly organs. To stop this ceaseless leakage of strength is as much the desire as the duty of women. It can be done once and for all by the use of Dr. Pierce's Favorite Prescription. This medicine is not a cure-all but it is specially designed for a specific purpose, the cure of the chronic diseases peculiar to women. It dries up the drains, allays inflammations, heals the ulcerations and cures the displacements which are at the bottom of woman's miseries. There is neither opium, cocaine or other narcotic contained in "Favorite Prescription." "For five years my wife was in an almost helpless condition, suffering from female weakness," writes J. G. Everett, Esq., of Hagerman, Washington Co., Md. "Last September I decided to try Dr. Pierce's Favorite Prescription. She took several bottles of the medicine and gave birth to a fine, healthy son on January 31st. She is now sound and well and doing her household work."

ity who are charged with the high duties of seeing that the laws are obeyed and enforced, and to aid whenever and wherever possible in the suppression of lawlessness and crime and, Whereas, It is being openly charged that there are some lawless characters here who definitely trample law and order under their feet for the ill-gotten gains which they hope to reap, and who thus proclaim that they will not obey the mandate of this free people fairly expressed at the polls, now therefore,

Be it resolved, First.—That the good citizenship of Hartford will not permit these lawless persons to insult and offend the good citizens of Ohio county whose county town this is, by defying the law against the sale of intoxicating liquors or by disregard of the peoples' recorded will in any other particular.

Second.—We pledge ourselves to use all honorable means to bring to justice and to punish in the courts of law, all those who seek to violate the recorded will of the people of this town prohibiting the sale of intoxicating liquors.

Third.—We pledge to the officers of the law, to the County Judge and to the County Attorney and to the Circuit Judge and the Commonwealth's Attorney of this District the hearty assistance and support of the law-abiding element of Hartford in an honest effort to obtain a just and adequate enforcement of the law prohibiting the sale of intoxicating liquors here, and we respectfully ask of the Circuit Judge and the Commonwealth's Attorney that no indictment for the violation of this law be filed away or stricken from the docket until a fair and speedy trial of the offender has been before a jury of this county to whose upright and fearless judgments we are willing to entrust the rights of this community in this particular.

Fourth.—In an effort to bring about the purpose of this meeting and organization as expressed in these resolutions, we earnestly ask the aid and support of every citizen of this county who believes in the maintenance of the right of a community to govern itself by the expressed will of the majority of its citizens and the protection of society from that class of criminals who for gain are willing to violate this law, just as the same criminals would for sufficient gain disregard any other of the laws which guard and protect the life, liberty and property of the citizen and would violate the homes and firesides whose only safety and protection in a land like this is the rigid enforcement of the law.

### In Memoriam.

Trisler, Ky., Dec. 30, 1899.  
It is once more my painful duty to write of the death of a beloved friend, a model neighbor, ideal citizen, and Christian gentleman, J. W. Miles, of Trisler, Ohio county, Ky. On the 25th inst. at about 11 a. m., he fell a victim to pneumonia complicated with an acute neuritis of sciatic nerve, the latter at times during the last three days preceding death giving him intense agony.  
I think I may safely say he lived and led a blameless life from its inception until the end, embracing a period of near fifty-nine years. Perfection I suppose is never found this side of the "Beautiful Beyond," but in this case as neighbors will testify it was hard to find a genuine imperfection.  
Yes, Willie Miles, as we familiarly called him, is no more our neighbor, patron, and friend; no more the loving and beloved husband, parent and counselor in a worthy family; no more to be numbered with the most orderly walking members of Pleasant Grove Baptist church, but from indubitable evidences of his acceptance so clearly shown in his dying hour, all of us have "an abiding faith" that Heaven is richer by one jewel and he at rest. But five or six hours before his death when asked by the writer if he feared to die, he promptly answered "O, no, though I would like to stay a while longer with my family, I am not afraid to die," adding "we must die sometime anyway."  
He was sadly laid to rest by the hands of neighbors and friends in the cemetery at Pleasant Grove, on the 26th inst., after a beautiful funeral discourse, to a large concourse of people (weather considered) by the Rev. J. D. Hocker. And there, dear friend, rest from the trials and vexations of earth; rest until the final morn when soul and body shall be united and purified; rest beneath the monument of marble which will mark your grave. But you have another monument reared by a well spent life, that monument stands in the heart of memory, and with all who knew you here, "The free song of the uncaged bird," and the blooming wild flower will enliven the scene of your narrow dwelling, but as oft as we pass that way a sigh will go forth for the friend we loved, notwithstanding your triumphant death assured us that your redeemed spirit is safely housed in the bosom of God, and happy in the full fruition of the lively hope which beautified your life.

### CATARRH CAN BE CURED.

## MURDOCK'S CATARRH CURE.

IT GOES TO EVERY PART.  
SURE, SAFE AND PLEASANT.

For years has the medical fraternity sought a reliable and sure cure for Catarrh. In this endeavor many hundreds of nostrums have been offered to a suffering public, and the health of thousands have been completely ruined by taking them, these various compounds causing the worst forms of Dyspepsia. Sprays and ointments are also worthless, as it is impossible to reach the affected parts in this manner.

MURDOCK'S CATARRH CURE is a new and scientific preparation and is to be smoked in a pipe, thereby the fumes and smoke going over the entire system affected by the disease. It relieves instantly the worst forms of Asthma, Bronchitis, Hay Fever, Colds in the Head and all forms of Catarrh, no matter what shape, and cures when treatment is continued for reasonable time. No matter how little you are affected, don't delay treatment. Catarrh comes often from simple colds. Like all new and valuable preparations you will find others saying theirs are just as good. Beware of imitations, as they are worthless. WE ONLY ASK A TRIAL TO CONVINCE. Mailed to any address, prepaid, on receipt of price.

Put up in tin boxes, \$1.00 per box; treatment for 30 days.

An accident unparalleled in Ohio county occurred in the West Providence community, Dec. 30th. The scene of this awful misfortune was the happy home of Mr. Noah Burden. Mrs. Burden was out on an errand at the well, leaving her little children alone in the room. The elder was in advance of two years. The baby was about three months old. The little one was tied in a rocking chair and placed near the fire for comfort. It was left in care of the two-year-old child. In the mother's absence it is supposed that the child was rocking the little one when an unfortunate moment the chair was overturned. Both of the little ones landed in the fire remaining there until screams hastened their mother's return. After a day of awful suffering the baby died early Saturday evening. Funeral exercises were conducted at West Providence Sunday by Rev. H. Brown. The elder child was badly burned and not expected to recover, but at last reports it yet lives.

Have You Heard of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphates that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

### CENTERTOWN, KY.

We have just passed through a pleasant holiday week, and are yet spared to perform the labor left for us to do.

Our sick are nearly all able to be up.

Richard James has gained strength rapidly and is able to ride horseback.

Mr. Willis Rowe's daughters are recovering from their recent illness.

Mrs. Wilson Rowe is thought to be improving.

Our new stores are nearing completion rapidly and will soon be ready for goods.

Dr. Coffman, of Sacramento, is in our town prepared to do good dental work on short notice.

Rev. T. X. Rowe, a magnetic healer, is with us and ready to drive your pains from your body.

Mr. Frank Ross, has returned from his Western trip.

Mr. Albert Rowe has gone to Indiana this week on business.

Miss Dena Woodward has finished her school and after a visit to her parents here, accompanied her cousin, Mr. Foster Howard, to his home in Owensboro, where she will visit a short time.

Dr. Richard Foster made a pleasant visit to the families of C. L. Woodward and Isaac Foster last week. We gladly welcome such boys as Richard and Foster to visit our little town.

Mr. Nat F. Arbuckle and wife, of Lingo, Mo., are visiting their sister, Mrs. Fannie Davis, at the home of H. H. Davis, and the brothers and sisters of Mrs. Fannie Davis met at the residence of H. H. Davis last Friday night and had one of the best old fashioned prayer meetings that was ever held. It would have done you good to have been there. We need more prayer, less whisky and swearing.

Success to you and a happy and prosperous new year. Make your state read for McKinley and Bradley. Taylor has Kentucky now. PEARL.

## Just a Cough

Not worth paying attention to, you say. Perhaps you have had it for weeks. It's annoying because you have a constant desire to cough. It annoys you also because you remember that weak lungs is a family failing. At first it is a slight cough. At last it is a hemorrhage. At last it is easy to cure. At last, extremely difficult.

## Ayer's Cherry Pectoral

quickly conquers your little hacking cough.

There is no doubt about the cure now. Doubt comes from neglect.

For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption. It cures Consumption also if taken in time.

Keep one of Dr. Ayer's Cherry Pectoral Plasters over your lungs if you cough.

Shall we send you a book on this subject, free?

Our Medical Department. If you have any complaint whatever and desire the best medical advice you can possibly obtain, write the doctor freely. You will receive a prompt reply, without cost.

Address, Dr. J. C. Ayer, Lowell, Mass.

How to Get Rich.

The way to get rich is to trust nobody, befriend none, get all you can, take all you can get, stint yourself and everything that belongs to you, be a friend to no man, let no man be a friend of yours, heap up interest, be mean, miserly and despised for some twenty or thirty years, and riches will come to you as sure as disease, disappointments and death, and when pretty near enough wealth has been accumulated by a disregard of the charities of the human heart, and at the expense of every enjoyment, death will finish the work, and the body is buried, the heirs dance and fight over what you have left, and the spirit goes —where? By all means get rich. It will pay—the devil says so.

The first people who will live in the twentieth century, according to the computation of a writer in the January Ladies' Home Journal, are the inhabitants of a group of mid Pacific islands. To women who contemplate visiting the Paris Exposition next year "Edith and I in Paris," in the same magazine will prove helpful and interesting.

"The Boer Girl of South Africa," "The Mother of the Stars," summarizing Maria Mitchell's achievements, and "The Home Coming of the Na-kannies," are also features of notable interest in the January Journal.

Franklin Fyles writes on "The Rehearsal of a Play," and the author of "Mr. Dooley" gives a convulsively funny account of Molly Donahue's muscals. Albert W. Smith contributes more of his exquisite nonsense verses. Edward Bok writes in protest against "A National Crime at the Feet of American Parents," and in contrast is shown "The New Idea in Teaching Children." Ian MacLaren's discourse on "The Minister and the Organ," and the last of the letters that passed between Gail Hamilton and Whittier brings the correspondence almost to the close of the poet's life. # ONLY ONE CURE FOR SCROFULA.

**S. S. S. is the Only Remedy Equal to this Obsolete Disease.**

There are dozens of remedies recommended for Scrofula, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scrofula is one of the most obstinate, deep-seated blood diseases, and is beyond the reach of the many so-called purifiers and tonics because some of them are more potent than S. S. S., but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return. Swift's Specific—

**S. S. S. FOR THE BLOOD**  
—is the only remedy which can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all suffering from blood troubles can be promptly cured. Instead of enduring years of suffering which gradually but surely undermines the constitution, S. S. S. is guaranteed purely vegetable, and never fails to cure Scrofula, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Boils, Tetters, Pimples, Sores, Ulcers, etc. Insist upon S. S. S., nothing can take its place. Books on blood skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

## Cheap Shingles.

The word "cheap" has two meanings, it may mean "cheap" quality, or "cheap" price. When I use the word it applies to the price. That's not egotism—it's business. I've built up the biggest shingle business in this section of the country just by sticking to

### Highest Grades and Lowest Prices.

And I could not have done that if I had used the word "cheap" carelessly. Of course I sell some low-grade shingles, but even on them, the price is "cheap," same as on the higher grades.

### HERE ARE THE PRICES:

Common grades, 5-in. dimension Cypress Shingles \$1.75 per 1,000.  
No. 1 Yellow Poplar Shingles \$2.10 per 1,000.  
Best Star A Star White Cedar Shingles \$2.85 per 1,000.  
Best Red Cedar Shingles \$3.10 per 1,000.  
Grade for grade, these prices cannot be equalled. My Cedar Shingles, I guarantee not to crack, warp, or curl up at the butts. When put on a roof they lay flat, and stay that way. They make the best roof. When you want any amount of any kind of shingles and want them at the lowest prices, call and see me about it. Write if you can't call.

### The Boer as a Fighter.

The world since the Boer war of 1881 has formed a very high estimate of Boer skill with the rifle. The fact is, that the Boer is a fair shot, thoroughly familiar with his weapon, with the horse he rides, and with the country in which he fights.

The Boer's strong point is his mobility. He can ride to a chosen spot, dismount and drop his reins, fire a half-dozen shots, mount again, and go to a fresh position. His horse is trained to "stand in the veldt," where ever he is left. His commissariat is of the simplest. A chunk of biltong in his pocket will supply many meals for himself, and the grasses of the veldt give abundant forage for his horse. His skill with the rifle has been acquired in pursuit of large herds of antelope. But he knows nothing of the finer skill of the deer stalker. His favorite mark is a herd of two or three hundred blesbok. I have seen a Boer refuse to fire at a single animal, on the ground of a too probable waste of ammunition.

The Boer has not been without his uses in the world-scheme of civilization. Like the American backwoodsman, he has blazed the way for the march of progress. His bold and restless spirit has pointed out a path to the crowding nations of the old world. His has been the privations, his the toil, and his the peril. But his function is at an end; civilization presses at his heels; the land from which he drove out the Kaffir calls for a denser population. He must submit to absorption or perish. For the present he refuses to be absorbed. Mene, mene, tekel upharsin—"The Boer War of 1881," by an English Officer Who fought in it, in January Forum.

### The Sick Made Well.

Have you any pain, or ache, or weakness? Does your blood show that it contains impurities? Are you nervous? Do you lack snap and activity of mind? Are you easily tired? Have you lost ambition? Is there any unnatural drain upon your system? Is every organ performing its proper function? In other words: Are you a perfectly strong, active, vigorous, healthy, happy man or woman? If not, you should not delay one day before you consult J. NEWTON HATHAWAY, M. D., 309 Church St., Nashville, Tenn.

### Theological Education Defects.

The criticism is persistently made in various quarters to the effect that theological education is in some respects defective, that it does not meet the demands which are made upon the clergyman of modern times. It is claimed that the progress made in the theological seminary cannot compare with the advances in the plan and scope of the work undertaken by the schools of the liberal professions. It is, indeed, vigorously asserted that the ideals of research and intellectual industry which have been developed in the graduate courses of the best universities have affected the divinity school less than any other department of study; so that much remains to be done before the school

### Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It is used to be considered that only urinary troubles were to be traced to the kidneys; but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Kidney, the great kidney remedy is soon realized. It stands the highest. We will send you a bottle of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Kidney, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

When you think you have bought good and find that it is only cheaply plated brass you are disgusted. A sure remedy for this difficulty is to deal only with responsible parties who guarantee their goods. At the store of WILLIAMS COAL COMPANY, OF McHENRY, KY., you can find a nice assortment of jewelry that is fully warranted, manufactured by W. F. Main Co., made of rolled gold plate, gold filled gold from solid gold stock, and guaranteed to be exactly as represented and give satisfaction or we will return the money paid for the goods. It will not cost you a cent to test these goods, if they are not as represented, because you can return your purchase and get your money back after wearing the article sufficiently to know exactly what it is.

If you live too far away from Williams Coal Co. to get the goods there, or no other of our customers are near you, write to us direct and we will send you the articles you need, fully warranted, to be sent by mail. We will also send instructions on the care of the case, how to clean it, etc., on application. W. F. MAIN CO., Eastern Factory, Cor. Friendship & Eddy Streets, Providence, R. I.
